## PEN - Empowering Children Through Education

Progressive Education Network (PEN) is a professionally managed Not-for-Profit Organization registered in 2005 with the Securities & Exchange Commission of Pakistan. Its main objective is to provide quality and value-based education to the under-privileged children of Pakistan, aiming to make them harbingers of change in society for economic prosperity and tolerance in attitudes.

So far, PEN has actualized this vision by adopting 292 public schools with an enrolment of 75,615 students across twenty five (25) districts of Pakistan and transforming them into centers of quality learning.

PEN makes improvements at these schools to tackle problems of poor infrastructure due to limitation in resources, lack of academic achievement resulting from lack of trained teachers and opportunity gaps due to social issues. Far too often, schools lack even the bare essentials, and PEN plays a key role to forge a productive and meaningful learning experience to ensure that children can reach their potential.

PEN rolled out its first activity in 2010 by creating a conducive learning environment in 23 public schools in Lahore. The drive has now extended to Sindh and Islamabad in a bid to reach public schools all over the country.

---

## Vision

To provide free and quality education to all children.

To help achieve a literate, developed, prosperous and enlightened Pakistani nation: playing a responsible role in the world.

---

## Mission

To create a conducive school environment for learning nurturing ethical, socially responsible, forward-looking future citizens of Pakistan.

To engage trained and compassionate teachers committed to the cause of nation-building through education.

To adopt and leverage technology and modern techniques in teaching and learning process.

---

## Goal

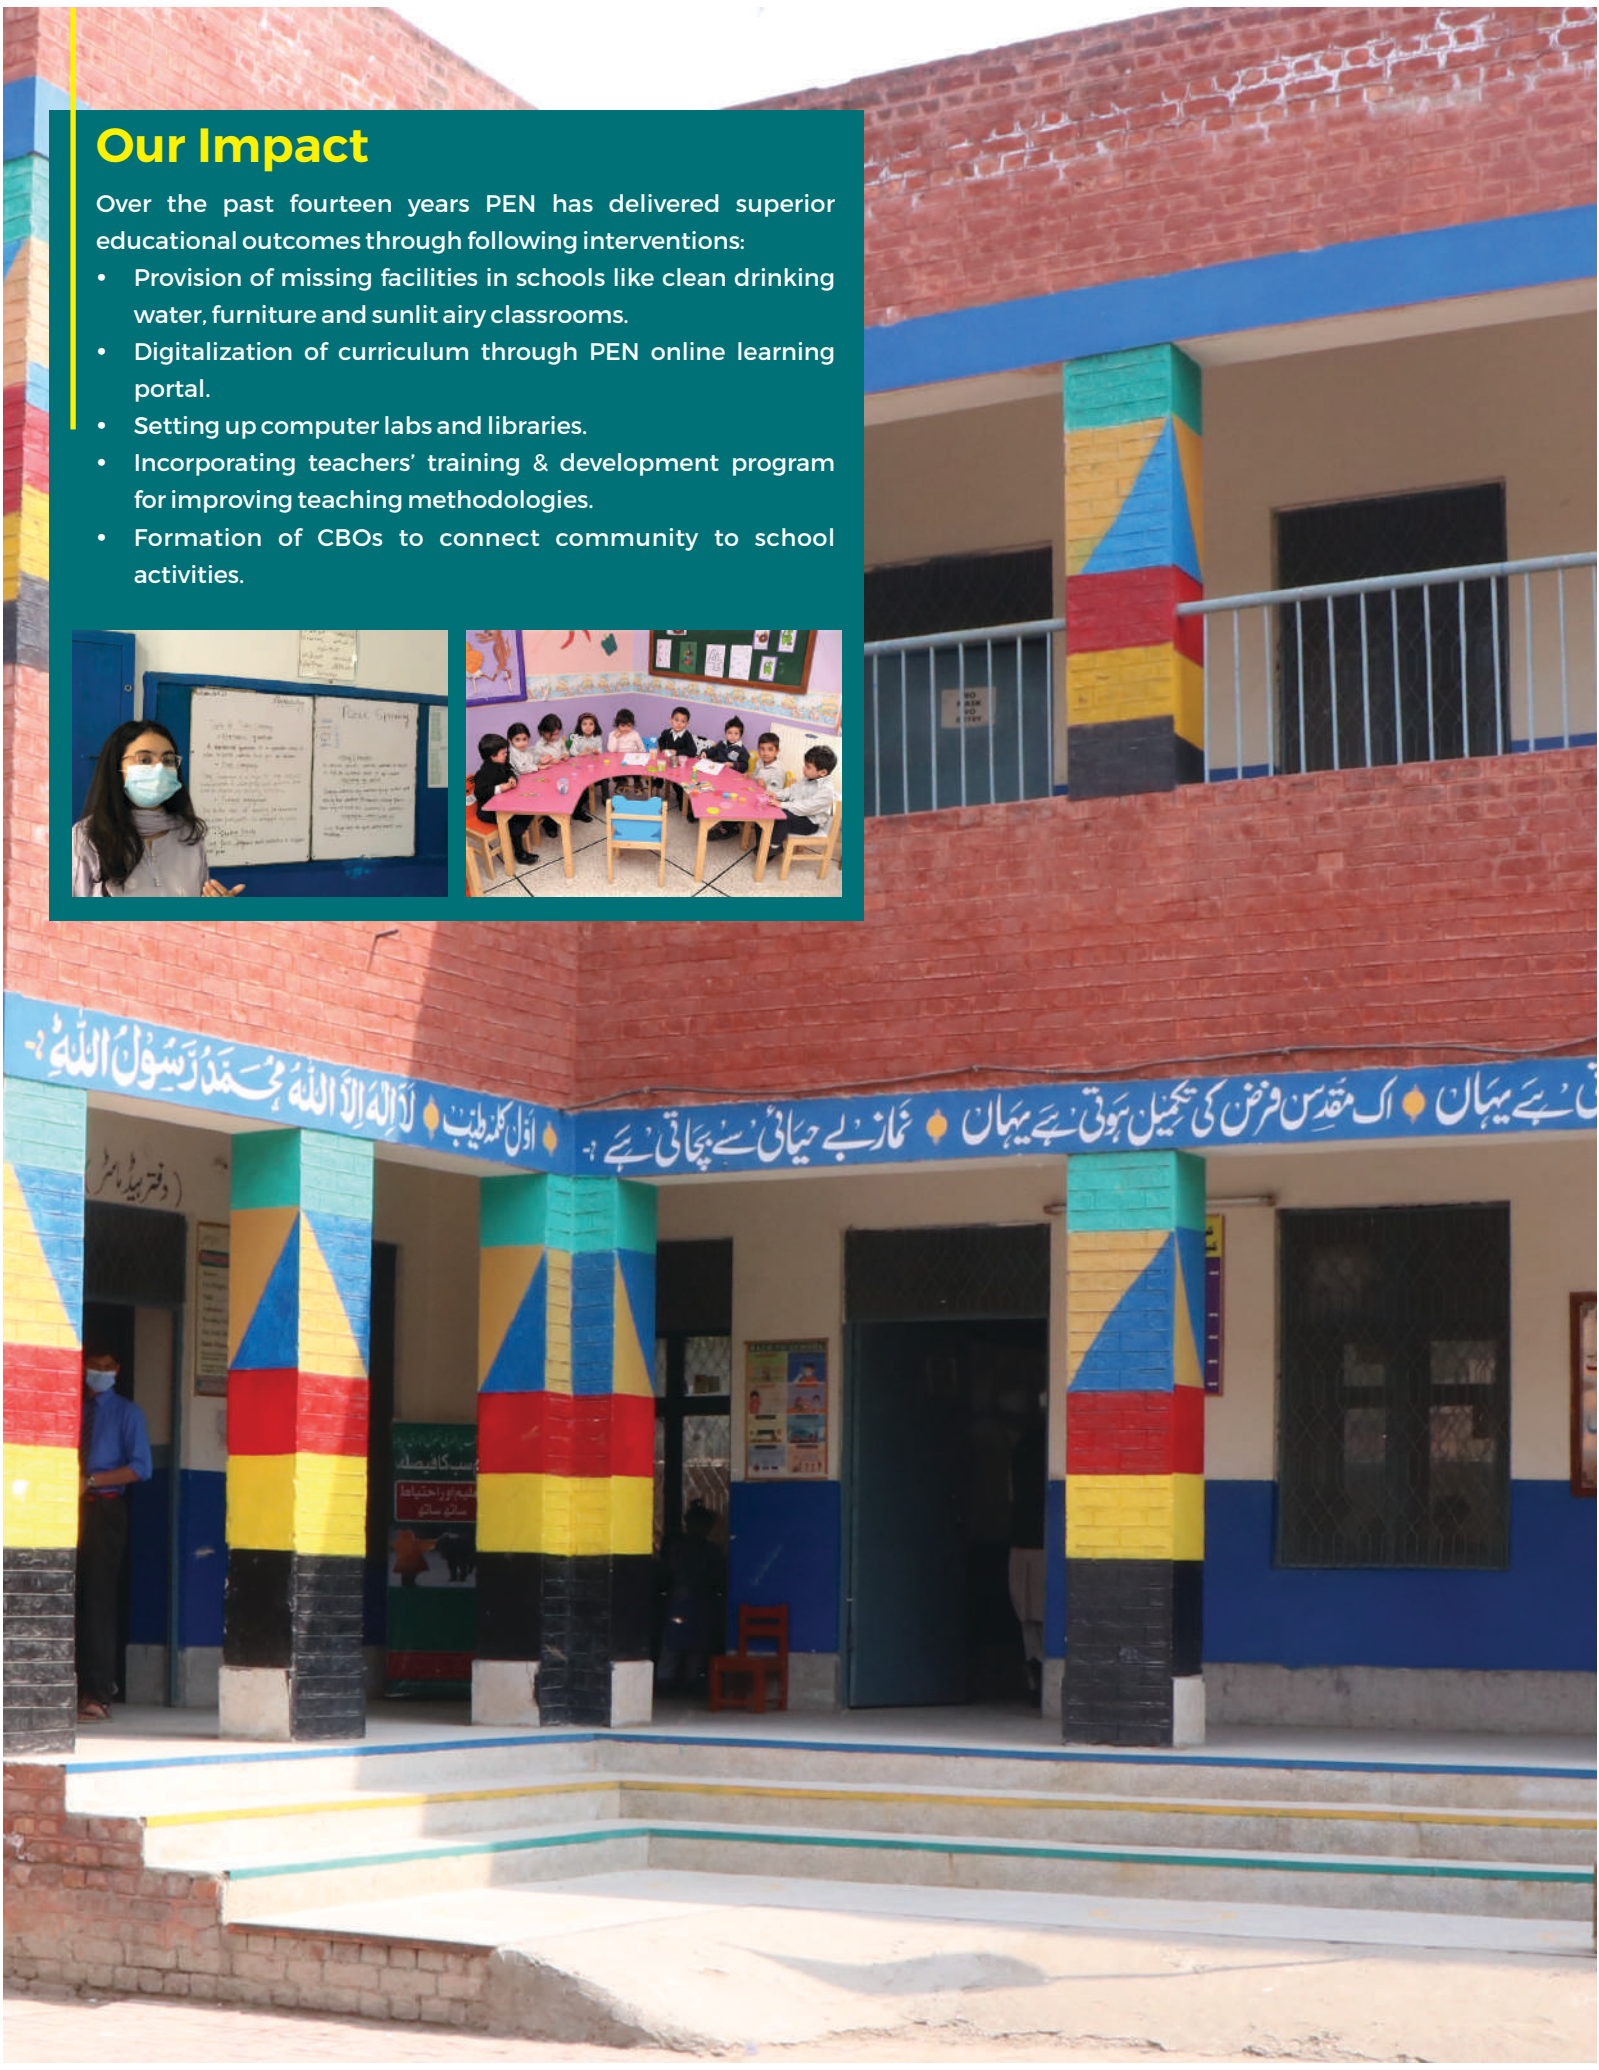

To enrol more than one (1) million children in PEN managed schools by 2030 and reach a minimum of five (5) million children as regular users of educational tools based on PEN technology.

## Our Impact

Over the past fourteen years PEN has delivered superior educational outcomes through following interventions:

- Provision of missing facilities in schools like clean drinking water, furniture and sunlit airy classrooms.
- Digitalization of curriculum through PEN online learning portal.
- Setting up computer labs and libraries.
- Incorporating teachers' training & development program for improving teaching methodologies.
- Formation of CBOs to connect community to school activities.

## Empower and Educate The Under-Privileged Children In Remote Areas

Pakistan has the second highest number of out-of-school children in the world-20.8 Million.

We are stagnant at 60% literacy rate since last decade. To overcome this grave challenge, PEN reaches out to children in remote areas across Pakistan. This is very difficult and costly.

### New Milestones To Achieve

- Enrolment of more than one million children in PEN managed schools across Pakistan.
- Establishment of libraries and IT Labs in PEN schools across Pakistan.
- Initiation of non-formal schools for working children in existing PEN schools through evening programs.
- Establishment of PEN model schools in every district of Pakistan.
- Using digital e-learning tools in the teaching and learning process.
- Enhancing scope of school infrastructure for imparting literacy, vocational training and for community development.

## Handshake With Noon Academy

Noon is a global social learning platform driven by the mission to make education fun, interactive and affordable for millions of students worldwide. Students use the Noon App every day to engage with live interactive classes and gamified peer learning features, study with experienced teachers, and socialize with their friends. The platform is loved by 20+ million students across 8 countries with the aim to radically transform the lives of 50 million students by 2023.

## Corporate Governance

PEN has in place well-established corporate compliance procedures and systems to ensure that the organization achieves its objectives with complete transparency, accountability, fairness and responsibility.

The Board of Directors, CEO and key management staff perform under delegated powers and responsibilities and are accountable for their specific KPIs.
